SKILLS

- **Languages:** Java, JavaScript, C, C++, Python
- **Technologies:** HTML, CSS
- **Databases/Tools:** MySQL, Git, GitHub, Figma
- **Soft Skills:** Problem solving, Team collaboration, Time management, Adaptability

PROJECTS

TIKKI TOPPLE GAME | [GitHub](#)

April 2026 - May 2026

- Developed a turn-based strategy game in Python using Pygame, implementing core game logic, scoring, and turn management.
- Implemented local multiplayer and AI opponents with Easy, Medium, and Hard difficulty levels.
- Designed an animated game interface featuring interactive menus, gameplay board, score tracking, and winner screens.
- Built a 20-turn scoring system with strategic gameplay mechanics for competitive play.
- Integrated procedurally synthesized sound effects directly in Python, eliminating dependency on external audio files.
- Applied object-oriented programming and modular game architecture to organize gameplay, UI, AI, and audio components.
- **Tech Stack:** Python, Pygame.

Personal CARVAULT WEBSITE | [GitHub](#)

Nov 2025 - Nov 2025

- Developed a personal car showcase website.
- Designed the website to showcase my favorite cars, including their specifications, features, performance, and other important details.
- Used HTML to structure the webpages and organize car information in a clear and readable format.
- Used CSS to create a visually appealing layout, styling, responsive sections, and an automotive-themed user interface.
- Implemented JavaScript to add interactive elements and improve the overall user experience.
- Added detailed information such as engine specifications, horsepower, top speed, acceleration, transmission, and other car features.
- Organized multiple cars into individual sections/cards so users could easily explore and compare different models.
- The project helped me improve my understanding of frontend web development, UI design, and JavaScript-based interactivity.
- **Tech Stack:** HTML, CSS, JS.

TRAINING

WEB DEVELOPMENT & SOFTWARE ENGINEERING INTERN | CODSOFT (VIRTUAL)

June 2026 - July 2026

- Built interactive, responsive front-end web components using HTML5, CSS3, and JavaScript to enhance user experience.
- Collaborated on bug fixing, code optimization, and cross-browser responsiveness testing.
- Utilized Git and GitHub for version control, code reviews, and structured task management.

CERTIFICATES

- Introduction To Python | [Springboard](#) Feb 2026
- Introduction To Cloud Computing | [Infosys](#) March 2026

ACHIEVEMENTS

- Selected for GSA'26 (Google Student Ambassador).
- Ranked Top 10 among 50+ teams in a college hackathon.

EDUCATION

Lovely Professional University

- *Bachelor of Technology - Computer Science and Engineering*

Phagwara, Punjab

Aug 2025 - Present

Rose Mary Convent School

- *Higher Secondary Education.*

Bathinda, Punjab

May 2023 - Mar 2025

Army Public School

- *Secondary Education.*

Panchkula, Haryana

Jun 2022 - Mar 2023
